**SEVA PRO EXPANDS B2B PRODUCT PORTFOLIO; ONBOARDS 28 LEADING CORPORATES**

*The healthcare-at-home provider is focusing efforts on expanding its B2B arm, Seva PRO, to make quality care available to employees across the country.*

**NASHUA, New Hampshire (1 June 2021):** Seva At Home, one of India's leading healthcare-at-home services, has strengthened its B2B product portfolio further by adding two new products. This takes the total number of B2B product offerings to 7.

The services available for corporates now include a fully-equipped medical room in the office premises, with access to a doctor and/or a nurse; Covid packages; an ambulance on site for medical emergencies; availability of home healthcare services to all employees and their family members; regular health check-ups; engaging wellness webinars by industry experts; and telehealth services so every employee can consult a healthcare professional no matter where they are. Along with these services, the brand has also created a tech platform, Seva PRO Marketplace, where employees can share health updates and set up appointments with the physicians on board.

By subscribing to these services, corporates will be able to make a positive impact in the lives of their employees and customers.

Speaking about this expansion, Mr. Atul Kishore, Head, Seva PRO said, "Seva PRO's integrated network of healthcare practitioners allows companies to further assist employees who are currently working in remote locations. Seva At Home will continue to invest resources in building this base in order to realise its goal of making quality healthcare available to all."

The company has made tremendous strides in expanding its B2B arm, Seva PRO. Recognising the urgent need for quality healthcare, Seva At Home scaled up operations to make available healthcare services at the workplace—since that is where a significant portion of time is spent by the working population—and is now working with 28 additional companies through Seva PRO. The company's roster of corporate clients includes Fortune 500 MNCs, insurance firms as well as leading Indian companies.

"We will continue to strengthen Seva PRO's portfolio to ensure that the workplace is a healthy environment and that employees continue to receive the care they deserve", Mr Atul Gandhi, Founder CEO, Seva At Home said.

Seva PRO has grown considerably since its launch in 2021, and now offers services to partner corporates that are uniquely customised to suit individual requirements.

**About Seva At Home**

Founded in 2019, Seva At Home is a technology enabled platform that offers comprehensive healthcare and support services to elders in the safety of their own homes. Created as a solution to the rising problem of insufficient healthcare facilities and lack of care providers, Seva At Home empowers family members (and caregivers) to engage with the health and wellbeing of their elders, no matter where they are in the world. Founded by NRIs and anchored by a large partner network on-the-ground in India, Seva At Home is led by a team of professionals who have extensive global experience in building value for all the stakeholders i.e. customers, partners, employees, investors et al.
